10am- 2pm

Call us today to
reserve your spot!
Light refreshments will be served.

*Botox Cosmetic & Radiesse will not be offered at this open house.

Vein Specialists Introduces Spa Services

You have trusted Vein Specialists for your vein care. We have been told by our patients that our office is comfortable, cozy and unlike any physician office in town. Now you can continue to visit Vein Specialists and enjoy our newest services added to our current practice.

Our medical assistant, Donell Termecz is also a Licensed Esthetician and will be offering:

- Facials
- Chemical Peels
- Waxing
- Eyebrow and Eyelash Tinting (By appointment only).

Consultations will receive a free skin analysis taken with the new digital Reveal camera which captures underlying skin damage from the sun and photo aging.

Since many of Vein Specialists patients have asked Dr. Magnant to include other injection services, **Dr. Magnant now offers the full line of Obagi Medical grade skin care as well as Botox Cosmetic and Radiesse fillers to his patients.**
