IN HEALTH

JOSEPH G. MAGNANT, M.D., F.A.C.S.

*Dedicated to the treatment of leg vein disorders.*

*Joseph G. Magnant, M.D., F.A.C.S.*

**D**r. Joseph Magnant has introduced a new paradigm in the evaluation and treatment of patients with leg vein problems. He opened Vein Specialists at Royal Palm Square in Fort Myers in June 2006 after 14 years of clinical practice in vascular surgery in the Atlanta area. Dr. Magnant is the only board-certified vascular surgeon in Southwest Florida whose practice is 100 percent dedicated to the comprehensive outpatient evaluation and treatment of venous disorders. An estimated 30 million adults in the United States suffer from venous insufficiency and varicose vein-related problems.

Vein Specialists at Royal Palm Square rely on state-of-the-art ultrasound evaluation by experienced, registered vascular technologists to formulate a logical treatment plan. This approach ensures that any underlying vein problems are identified before formulating a treatment plan, minimizing the chances of varicose vein treatment failures. Procedures are performed in a spa-like outpatient facility utilizing only local anesthesia and both the VNUS Radiofrequency and the CoolTouch Laser systems of endovenous closure treatment of varicose veins are offered. Vein Specialists' minimally invasive outpatient approach allows for a quick and nearly painless post-procedure recovery.

Dr. Magnant is committed to building on the excellent reputation he has established within Southwest Florida.
