FOR IMMEDIATE RELEASE

Re-Certified by the American Board of Surgery in Vascular Surgery (ABS)

FORT MYERS and BONITA SPRINGS, Fla. (Nov, 3, 2014) – Vein Specialists is pleased to announce that Dr. Joseph G. Magnant of Vein Specialists, with offices in Fort Myers and Bonita Springs has met the rigorous qualifications for re-certification in Vascular Surgery by the premier credentialing organization for vascular surgery professionals, the American Board of Surgery (ABS). This certification process requires vascular surgeons to pass a rigorous examination encompassing the most recent developments in all areas of vascular surgery and Magnant is now certified through 2024.

Achievement of this certification acknowledges Magnant's personal achievement of a highly recognized professional standard of excellence in all spheres of vascular surgery.

Commenting on his recent achievement as a re-certified Vascular Surgeon, Magnant noted that the re-certification is an important credential to maintain in his practice and is a demonstration of his commitment to the highest quality of venous care. Although his practice is limited to Venous disease management, maintenance of certification in Vascular surgery is important since he often encounters patients with vascular disorders other than venous in his day to day practice and staying current allows him to make the appropriate, objective recommendations to his patients regarding their venous and arterial issues.

Dr. Magnant is the owner of Vein Specialists, a practice dedicated 100% to the evaluation and minimally invasive care of patients with varicose veins and other presentations of venous disease and has offices in Fort Myers since 2006 and Bonita Springs since January 2014. The Fort Myers office is located at 1510 Royal Palm Square Blvd., Suite 101 and the Bonita Springs office is located at 3359 Woods Edge Cir., Suite 102. Both offices can be reached at (239) 694-8346. Visit the practice's websites, www.weknowveins.com and www.eveinscreening.com for more information.
